The mission is to transform offenders through the HOPE Community Reintegration Models using peer driven education within an evidence-based framework in order for them to re-enter society as productive and contributing members of their communities. These models are specifically designed to target recidivism, remediate the functionally illiterate prison population and provide them with the tools they need to be successful on their post-release.  The HOPE Reintegration Models create safe communities where inmates can live, learn and grow together. Training and modeling appropriate actions, attitudes, and behaviors that they practice prior to release is much more effective than warehousing. The integrated design of peer tutoring is unique within the jail/prison settings; even more powerful when it is in concert with facilitated life skills, education centers and spiritual development courses that employ a holistic approach.

There is a great demand for housing assistance in El Paso. HACEP typically has a waiting period of two to six years before applicants may receive housing assistance. In order to qualify, residents must earn less than 80 percent of the area median income, which is about \$39,000 per year for a family of four. However, most of our clients are considered to be extremely low income because they earn less than 30 percent of the area median income. For that same family of four, that is about \$15,000 per year. To address this need, HACEP has developed one of the largest and most comprehensive affordable housing programs in the country. Please click on the program below to find out exactly how these programs work and the populations that they serve. <b>For Homeless Civilians:</b> This is a transformative, grant-funded initiative to assist chronically homeless, disabled individuals. <b>For Seniors:</b> HACEP provides a variety of housing options for individuals and families above the age of 62. <b>For Domestic Farm Laborers:</b> In order to qualify, applicants must be a domestic farm laborer or a retired or disabled domestic farm laborer.
